

**MINIMUM STANDARDS FOR VETERINARY FACILITIES IN ONTARIO
TITLE 4.1. - REMOTE AREA COMPANION ANIMAL MOBILE
(SAMPLE INSPECTION FORM)**

1.0 GENERAL

- | | | | |
|-----|---|---|---|
| 1.1 | The facility is composed of, | | |
| | 1. a stationary element ("base unit"), | Y | N |
| | 2. one or more mobile elements ("mobile unit"), and | Y | N |
| | 3. a stationary element at the remote location ("remote unit"). | Y | N |
| 1.2 | The base unit, | | |
| | 1. is self-contained, | Y | N |
| | 2. has a separate and distinct entrance directly from the street, or if the facility is in a building containing more than one facility, directly from a common lobby, hallway or mall. | Y | N |
| 1.3 | The base unit has, and appears to have, the practice of veterinary medicine as its primary purpose. | Y | N |
| 1.4 | The base unit is not, and does not appear to be, associated with or operated in connection with another enterprise. | Y | N |
| | 1.4.N. Standards 1.3 and 1.4 do not prohibit the providing of ancillary services in the facility which are incidental and subordinate to the professional services provided in the facility. | | |
| 1.5 | The base unit is not located in, and has no direct public access to, a commercial establishment, | | |
| | 1. where animals are bought or sold, | Y | N |
| | 2. providing animal food or other goods or services used principally by, with or for animals. | Y | N |
| 1.6 | The contents of the mobile unit are organized so that they can be obtained readily for efficient service. | Y | N |
| 1.7 | There is a written agreement between the member or members who own or lease the facility and the member or members who own or lease an <u>unaffiliated</u> accredited companion animal hospital within the geographical area usually served by the mobile unit. | Y | N |
| | 1.7.N No agreement is necessary if the member or members who own or lease the facility also own or lease an accredited companion animal hospital (<u>affiliated companion animal hospital</u>) within the geographical area usually served by the facility, which may also be the base unit. | | |
| 1.8 | The written agreement provides that the member or members who own or lease the companion animal hospital, or his, her or their associates, will provide the services for animals referred to him, her or them by a member practicing in the facility for radiology, surgery, and hospitalization as required. | Y | N |

1.0 GENERAL (continued)

- | | | | | |
|------|--|--|---|---|
| 1.9 | The remote unit is located in a community that, | | | |
| 1. | is a minimum of 100 km. from an <u>unaffiliated</u> accredited companion animal hospital, or | | Y | N |
| 2. | is a minimum of 50 km. from an <u>affiliated</u> accredited companion animal hospital, and | | Y | N |
| 3. | has a population of fewer than 7, 000 people. | | Y | N |
| 1.10 | The member undertakes in writing to, | | | |
| 1. | ensure that the location of the remote unit from where the services will be provided properly serves the public in its location and provides adequate lighting, ventilation heat/cooling, size, cleanliness and accessibility, | | Y | N |
| 2. | provide for post-operative care after the member leaves the remote unit, | | Y | N |
| 3. | have a contact person to co-ordinate appointments and provide an avenue of contact with the member between visits. | | Y | N |

1.11 RECORDS

- | | | | | |
|---------------|--|--|-----|-----|
| 1.11 | Note: Refer to O.REG 1093, 22.-(1), (5) and (6), <u>Regulation1093</u> , Revised Regulations of Ontario as amended, under the Veterinarians Act. | | | |
| | 22.-(1) Do the records for each companion animal contain: | | | |
| 1.11.22.1.1 | (1) Patient identification, including species, age and sex. | | Y | N |
| 1.11.22.1.2 | (2) Client's name, address and telephone numbers. | | Y | N |
| 1.11.22.1.3 | (3) If the client is likely to be absent from his or her address while the animal is confined with the member, the name, address and telephone number of a person to be contacted in case of an emergency. | | Y | N |
| 1.11.22.1.4 | (4) Date of each time that the member sees the animal. | | Y | N |
| 1.11.22.1.5 | (5) A history of the animal's health, including a record of vaccinations. | | Y | N |
| 1.11.22.1.6 | (6) The animal's current weight. | | Y | N |
| 1.11.22.1.7 | (7) Particulars of each assessment, including any laboratory investigations performed or ordered by the member and the results of each assessment. | | Y | N |
| 1.11.22.1.8 | (8) A note of any professional advice given regarding the animal and an indication of when and to whom the advice was given if other than the client. | | Y | N |
| 1.11.22.1.9 | (9) All medical or surgical treatments and procedures used, dispensed, prescribed or performed by or at the direction of the member, including the name, strength, dose and quantity of any drugs. | | Y | N |
| 1.11.22.1.10. | (10) A copy of all reports prepared by the member in respect of the animal. | | Y | N |
| 1.11.22.1.11 | (11) A final assessment of the animal. | | Y | N |
| 1.11.22.1.12 | (12) The fees and charges, showing separately those for drugs and those for advice or other services. | | Y | N |
| | 22.-(5) Are the records: | | | |
| 1.11.22.5.1 | (a) legibly written or typewritten; | | Y | N |
| 1.11.22.5.2 | (b) kept in a systematic manner; | | Y | N |
| 1.11.22.5.3 | (b1) in practices of more than one practitioner or practices that employ locums , identified after each entry with the initials or code of the veterinarian responsible for the procedure; and | | | |
| | (EITHER YES or N/A) | | N/A | Y N |
| 1.11.22.5.4 | (c) retained for a period of at least five years. | | N/A | Y N |
| | (not applicable if new facility) | | | |

1.11 RECORDS (continued)

22.-(6)	Are the records retained in an electronic medium.(EITHER YES OR NO)	Y	N
	IF YES:		
1.11.22.6.1.	(1) is the recorded information capable of being printed promptly; and	Y	N
1.11.22.6.2	(2) are any changes in the recorded information clearly indicated as changes.	Y	N
	How many records were examined? _____		
1.12	The facility contains consent-to-surgery forms for execution by clients, and there is evidence that the forms are used and maintained in the animal's clinical record.	Y	N
1.13	Informed written consent must be obtained from the client when a member, or his or her auxiliary, must transport an animal or animals between accredited facilities.	Y	N
1.14	The facility contains consent-to-surgery forms for execution by clients, and there is evidence that the forms are used and maintained in the animal's clinical record.	Y	N
1.15	Informed written consent must be obtained from the client when a member, or his or her auxiliary, must transport an animal or animals between accredited facilities. (EITHER N/A or YES)	N/A	Y N

2.0 LIBRARY

2.1	The base unit contains,		
1.	1 or more veterinary reference textbooks published within the prior three years on basic topics in companion animal medicine or surgery (such as diagnosis, therapy or surgery).	Y	N
2.	2 or more current subscriptions to journals that are generally accepted as authoritative in recent developments in companion animal medicine or surgery, or alternatively, a subscription to a computerized veterinary information network.	Y	N
3.	a) a copy of the <u>Veterinarians Act</u> , and	Y	N
	b) the regulations,	Y	N
	c) standards and	Y	N
	d) by-laws under the Act,	Y	N
4.	a copy of the current regulations made under the <u>Drug and Pharmacies Regulation Act</u> ,	Y	N
5.	a copy of the <u>Compendium of Pharmaceuticals and Specialties</u> published within the last three years,	Y	N
6.	a copy of the <u>Compendium of Veterinary Products</u> or <u>CDMV Compendium</u> published within the last three years.	Y	N
2.1.N.	The above library requirements may be met by having access to an electronic equivalent.		

3.0 EXAMINATION FACILITIES

3.1	The following equipment for the examination of animals is readily available in the remote unit, or is retrievable from the mobile unit,		
1.	restraint devices such as a leash, a muzzle or safety snare,	Y	N
2.	stethoscope,	Y	N
3.	ophthalmoscope,	Y	N
4.	fluorescein eye-staining strips or single-dose disposable fluorescein eye drops,	Y	N
5.	otoscope and speculum,	Y	N
6.	alcohol or other disinfectant,	Y	N
7.	thermometer,	Y	N
8.	examination gloves,	Y	N
9.	lubricant,	Y	N
10.	disinfectant for the examination table and applicators for the disinfectant,	Y	N
11.	weigh scale appropriate to the weights of reasonably expected animals.	Y	N

4.0 PHARMACY

4.1	Note: Refer to O.REG.1093 25.-(1) to 28.-(4) <u>Regulation 1093 Revised Regulations of Ontario</u> , as amended under the Veterinarians Act.		
4.1.25.1	25.-(1) Is there a system for filing the records of purchasing drugs.	Y	N
	(2) Do these records contain the following information:		
4.1.25.2.1	(a) the date of the purchase.	Y	N
4.1.25.2.2	(b) the name, strength and quantity of the drug.	Y	N
4.1.25.2.3	(c) the name and address of the person from whom the drug was purchased or received.	Y	N
4.1.25.2.4	(d) the purchase price.	Y	N
4.1.25.2.5	(e) evidence of the signature of the member who purchases any controlled substance, ketamine or targeted drug.	Y	N
4.1.27.2.	27.-(2) Are the written records retained for at least five years. (not applicable if a new facility)	N/A	Y N
	Are drugs dispensed from the hospital? (EITHER YES OR NO)	Y	N
	IF YES:		
	27.-(3) Are the containers in which the drugs are dispensed marked with:		
4.1.27.3.1.	(a) the name, strength and quantity of the drug.	Y	N
4.1.27.3.2	(b) the date the drug is dispensed.	Y	N
4.1.27.3.3.	(c) the name and address of the member.	Y	N
4.1.27.3.4	(d) the identify of the animal or group of animals for which it is dispensed.	Y	N
4.1.27.3.5	(e) the name of the owner of the animal(s).	Y	N
4.1.27.3.6	(f) prescribed directions for use.	Y	N

4.0 PHARMACY (continued)

4.1.28.	28.	Does the member dispense controlled substances? (EITHER YES OR NO)	Y	N
		IF YES:		
4.1.28.1.0		Is there a “Controlled Substances Register” ?	Y	N
		Are ALL controlled substances recorded in the register?	Y	N
	28.-(1)	Does the Controlled Substances Register contain the following information:		
4.1.28.1.1	(a)	the date of dispensing.	Y	N
4.1.28.1.2	(b)	the name and address of the owner of the animal(s) for which the drug was dispensed.	Y	N
4.1.28.1.3	(c)	the name, strength and quantity of the drug dispensed.	Y	N
4.1.28.1.4	(d)	the quantity of drug remaining after dispensing.	Y	N
4.1.28.4	28.-(4)	Are ALL controlled substances, ketamine and targeted drugs kept in a locked cabinet designed and constructed to ensure the reasonable security of the drugs.	Y	N
4.2		Secondary containers for the storage of drugs within the facility have labels containing the name, strength where applicable, lot number and expiry date of the drug.	Y	N
4.3		Expired drugs are kept separate from unexpired drugs and are discarded or returned to the manufacturer promptly after expiry.	Y	N
4.4		Biologics and other drugs in the base unit requiring refrigeration are kept in a refrigerator,	Y	N
4.5		Biologics and other drugs in the mobile unit or the remote unit requiring refrigeration are kept in a device adequate to maintain the temperature recommended by the manufacturer of the biologic or other drug.	Y	N
4.6		The mobile unit contains at least one each of the following,		
	1.	adrenergic/sympathomimetic,	Y	N
	2.	anti-cholinergic,	Y	N
	3.	analgesic,	Y	N
	4.	sedative/tranquilizer,	Y	N
	5.	anesthetic: local/regional,	Y	N
	6.	anti-inflammatory,	Y	N
	7.	anti-microbial for intramuscular and intravenous administration,	Y	N
	8.	anti-convulsant,	Y	N
	9.	diuretic,	Y	N
	10.	emetic and anti-emetic,	Y	N
	11.	replacement fluids for intravenous administration,	Y	N
	12.	if narcotics are used, a narcotic reversal agent,	Y	N
	13.	biologics for immunization against common infectious diseases.	Y	N

4.0 PHARMACY (continued)

- | | | | |
|-----|---|---|---|
| 4.7 | Bulk supplies of drugs are kept in the base unit, and the mobile unit contains drugs sufficient only for the reasonably expected daily need at the remote unit. Drugs are not left at the remote unit when the member is not in attendance. | Y | N |
| 4.8 | A member who dispenses ketamine hydrochloride shall keep a ketamine hydrochloride register in which is entered, | | |
| | 1. the date of dispensing, | Y | N |
| | 2. the name and address of the owner of the animal or animals for which the drug was dispensed, | Y | N |
| | 3. the name, strength and quantity of the drug dispensed, and | Y | N |
| | 4. the quantity of the drug remaining after dispensing. | Y | N |
| 4.9 | A member who dispenses a targeted drug shall keep a targeted drug register in which is entered, | | |
| | 1. the date of dispensing, | Y | N |
| | 2. the name and address of the owner of the animal or animals for which the drug was dispensed, | Y | N |
| | 3. the name, strength and quantity of the drug dispensed, and | Y | N |
| | 4. the quantity of the drug remaining after dispensing. | Y | N |

5.0 LABORATORY

- | | | | |
|-----|--|---|---|
| 5.1 | The base unit contains, | | |
| | 1. microscope, microscope slides and cover slips, | Y | N |
| | 2. centrifuge and centrifuge tubes, | Y | N |
| | 3. microhematocrit centrifuge, microhematocrit capillary tubes and tube sealant, | Y | N |
| | 4. refractometer, | Y | N |
| | 5. urinalysis test strip or tablet reagents or both, | Y | N |
| | 6. staining solutions and chemicals for blood, urine and cytology examinations, | Y | N |
| | 7. forms for recording laboratory test results. | Y | N |

5.1.N. The centrifuges required by items 5.1.2 and 5.1.3 may be the same if the machine is suitable for both functions.

- | | | | |
|-----|---|---|---|
| 5.2 | The following investigation procedures can be performed within the facility or there is evidence of an arrangement that such procedures are performed by a diagnostic laboratory or there is a suitable combination for the performance of such procedures, | | |
| | 1. hematology, | Y | N |
| | 2. biochemistry, | Y | N |
| | 3. immunology, | Y | N |
| | 4. cytology, | Y | N |
| | 5. urinalysis, | Y | N |
| | 6. microbiology, | Y | N |
| | 7. histopathology, | Y | N |
| | 8. parasitology, | Y | N |
| | 9. necropsy. | Y | N |

5.0 LABORATORY (continued)

- 5.3 If laboratory services are not to be provided from the remote unit, the mobile unit contains equipment suitable for the collection of the specimens needed for the procedures described in clause 5.2. Y N

6.0 RADIOLOGY (DISCRETIONARY)

N/A Y

6.0.N The remote unit need not contain an x-ray machine but, if an x-ray machine is present at the remote unit, compliance with the following standards are required.

- 6.1 The remote unit or the mobile unit contains,
1. an x-ray machine with a collimator or cone, Y N
 2. two protective aprons each of at least 0.5 lead equivalent that are long enough to cover an operator from the neck to below the knees, Y N
 3. two pairs of gloves of at least 0.5 lead equivalent with cuffs at least 37.5 cm long, Y N
 4. individual monitoring badges obtained from an approved dosimetry monitoring service, that are worn by all people regularly involved in radiology procedures, Y N
 5. at least two thyroid protectors, Y N
 6. equipment to permanently identify radiographs with,
 1. the name of the veterinarian or the designation of the facility or both, Y N
 2. identification of the animal, Y N
 3. the date of the radiograph, Y N
 4. an indication of the left or right side of the animal, Y N
 5. an indication of time for sequential radiographic studies. Y N
 7. a radiographic log in which is entered, Y N
 1. the date each radiograph is taken, Y N
 2. identification of the animal and the client, Y N
 3. the area of the body exposed to the radiograph. Y N
 8. at least 2 film cassettes (holders), Y N
 9. fresh, unexposed x-ray film that is properly stored, Y N
 10. technique charts, one calibrated for each diagnostic x-ray machine, that indicate the MAS, Kv and focal distance for specific body areas and thicknesses, Y N
 11. material for positive contrast gastrointestinal radiography, Y N
 12. calipers or a measuring tape to measure body thickness. Y N
- 6.2 The base unit contains,
1. a machine that automatically develops radiographs or has, Y N
 2. a written agreement with an accredited facility providing 24 hours/day, 365 days/year access to radiograph developing equipment, within close geographical proximity to the base unit or, Y N
 3. a dark room that contains,
 1. a tank or tray containing fresh chemicals for developing and fixing exposed film, Y N
 2. a tank or tray containing fresh water for washing film, Y N
 3. a tank thermometer, Y N
 4. a safety light, Y N
 5. film hangers. Y N

6.0 RADIOLOGY (DISCRETIONARY) [continued]

- (the base unit contains)
4. a radiographic viewer, Y N
- 6.3 For each x-ray source in the facility, an application in accordance with sections or 7 of Ontario Regulation 861/90, made under the Occupational Health and Safety Act, has been reviewed and accepted by an inspector under that Act. Y N
- Reg. # _____
- 6.4 Radiographs not stored with the clinical record for the animal are stored collectively and maintained in a systematic manner and, in either case, are retained for a period of at least 5 years. Y N
- 6.5 The radiographs are of diagnostic quality. Y N

7.0 TREATMENT AREA

- 7.1 The remote unit contains,
1. one or more treatment areas which can be used for,
 1. preparing animals for major surgery, Y N
 2. performing minor (non-sterile) surgery, Y N
 3. performing dentistry, Y N
 4. providing medical treatment, Y N
 5. administering general anesthesia, Y N
 6. performing major surgery, Y N
 7. observing animals recovering from anesthesia and the immediate effects of surgery. Y N
- 7.1.1.N The areas defined may comprise one area.**
2. Each treatment area contains,
 1. a table large enough for the treatment of an animal, with a readily sanitized, fluid-impervious surface, Y N
 2. a drained sink with hot and cold running water. Y N
- 7.2 The treatment area contains or has readily available from the mobile unit,
1. electric hair clippers with a fine surgical blade or a razor for hair removal, Y N
 2. vacuum cleaner, Y N
 3. preparations for cleansing skin and other tissue prior to surgery, including a skin cleaning solvent and an antiseptic skin preparation solution, Y N
 4. a tray or container of fresh cold sterilization solution or sterilized packs containing at least one of the following,
 1. scalpel handles (not required if sterile disposable scalpels are used), Y N
 2. scissors, Y N
 3. suture needles, Y N
 4. needle drivers, Y N
 5. thumb forceps, Y N
 6. hemostatic forceps. Y N
 5. sterile gauze sponges, Y N
 6. absorbable and non-absorbable sterile suture material, Y N

7.0 TREATMENT AREA (continued)

7.	sterile intravenous catheters and administration sets,	Y	N
8.	sterile urinary catheters,	Y	N
9.	intravenous stand or equivalent,	Y	N
10.	drainage tubes, irrigation solutions and irrigation application supplies,	Y	N
11.	sterile needles and syringes,	Y	N
12.	cotton, gauze, bandages, tapes and splints,	Y	N
13.	stomach tubes appropriate to the esophageal sizes of reasonably expected animals,	Y	N
14.	sterile scalpel blades,	Y	N
15.	sufficient surgical packs for the reasonably expected case load, each of which,		
	1. display the date of sterilization and the name or initials of the person who carried out the sterilization,	Y	N
	2. contain the following sterilized instruments,		
	1. scissors,	Y	N
	2. 2 thumb forceps,	Y	N
	3. 4 towel clamps,	Y	N
	4. scalpel handle (not required if disposable sterile scalpels used),	Y	N
	5. 4 hemostatic forceps,	Y	N
	6. spay hook,	Y	N
	7. needle driver,	Y	N
	8. an internal sterility monitor.	Y	N
7.3	Either the remote unit or the base unit of the facility contains,		
	1. a steam sterilizer of sufficient size to sterilize the quantity of surgical packs necessary for the reasonably expected case load (a gas sterilizer may be present but it is not a substitute for the steam sterilizer)	N/A	Y N
	or		
	2. a written agreement between the member or members who own or lease the facility and the member or members who own or lease an accredited facility with a steam sterilizer in close geographical proximity, which provides that the member or members who own or lease the facility may have regular use of the steam sterilizer.	N/A	Y N
7.4	The remote unit treatment area contains or has readily available from the mobile unit, a surgical log, either alone or in combination with the anesthetic log, in which is entered in respect of each major surgical procedure performed in the facility,		
	1. the date of each procedure,	Y	N
	2. the name of the client,	Y	N
	3. the breed, age, sex, weight and identity of the animal upon which the procedure is performed,	Y	N
	4. the name of the surgeon,	Y	N
	5. the nature of each procedure,	Y	N
	6. the animal's pre-operative condition, e.g. whether the animal was healthy; indicated mild disease; indicated an existing disease with mild systemic reaction; or indicated acute or severe systemic disease,	Y	N

7.0 TREATMENT AREA (continued)

- | | | | |
|----|---|---|---|
| 7. | the animal's post-operative condition, e.g. whether the animal demonstrated an unremarkable condition and status during the post-surgical period; required post-surgical care; or died during or shortly after surgery, | Y | N |
| 8. | the length of time taken to perform the procedure. | Y | N |

8.0 ANESTHESIA

- | | | | |
|-----|--|---|---|
| 8.1 | The remote unit anesthesia area contains or has readily available from the mobile unit, | | |
| 1. | pre-anesthetic agents, | Y | N |
| 2. | induction anesthetic agents for intravenous administration, | Y | N |
| 3. | cuffed endotracheal tubes and tube adaptors appropriate to the tracheal sizes of reasonably expected animals, | Y | N |
| 4. | antiseptic agent for venipuncture preparation, | Y | N |
| 5. | sterilized needles and syringes, | Y | N |
| 6. | a machine for the administration of gaseous anesthesia that includes a canister containing a fresh agent to absorb carbon dioxide, | Y | N |
| 7. | gaseous agent for the induction and maintenance of general anesthesia, | Y | N |
| 8. | a cylinder of compressed medical oxygen, | Y | N |
| 9. | a gas scavenging system that complies with the requirements of the <u>Occupational Health and Safety Act</u> , | Y | N |

8.1.9.N A passive scavenging system may be used in the remote unit, but the member is responsible for ensuring that the remote unit has at least one window that can be opened to the outdoors and that the area is adequately ventilated during operation of the anesthetic machine.

- | | | | |
|-----|--|---|---|
| 10. | a bag device for monitoring respiration or an electronic respiratory monitor, | Y | N |
| 11. | a stethoscope, | Y | N |
| 12. | an esophageal stethoscope for cardiac monitoring or an electrocardiograph machine, | Y | N |
| 13. | a blanket or towel to retain an animal's body heat. | Y | N |
-
- | | | | |
|-----|--|---|---|
| 8.2 | The remote unit contains, or has readily available from the mobile unit, an anesthetic log, either alone or in combination with the surgical log, in which is entered in respect of each induction of general anesthesia in the facility, | | |
| 1. | the date of induction, | Y | N |
| 2. | the name of the client, | Y | N |
| 3. | the breed, age, sex, weight and identity of the anesthetized animal, | Y | N |
| 4. | the pre-anesthetic condition of the animal, e.g. whether the animal was healthy; indicated a mild disease; indicated an existing disease with mild systemic reaction; or indicated acute or severe systemic disease, | Y | N |
| 5. | the name, dose and route of administration of any pre-anesthetic agents, | Y | N |
| 6. | the name, dose and route of administration of anesthetic agents, | Y | N |
| 7. | the nature of the procedures performed under the anesthetic, | Y | N |
| 8. | the post-anesthetic condition of the animal, e.g. whether the animal recovered normally; demonstrated vocalization, excitement or paddling; demonstrated extreme vocalization, convulsions or vomiting; suffered cardiac or respiratory arrest; or died. | Y | N |

9.0 CONFINEMENT

- | | | | |
|-----|---|---|---|
| 9.1 | The remote unit contains, or has readily available from the mobile unit, enough compartments to accommodate the reasonably expected number of confined animals. | Y | N |
| 9.2 | The compartments are large enough to accommodate comfortably animals of reasonably expected sizes. | Y | N |
| 9.3 | Each compartment, | | |
| | 1. allows for adequate air circulation within it, | Y | N |
| | 2. is secure and solidly constructed, | Y | N |
| | 3. permits easy observation of the animal, | Y | N |
| | 4. will prevent the contained animal from escaping. | Y | N |
| 9.4 | The remote unit contains, or has readily available from the mobile unit, | | |
| | 1. equipment and materials for applying disinfectants to compartments, | Y | N |
| | 2. material for clean, dry bedding, | Y | N |
| | 3. devices for capturing and restraining animals, | Y | N |
| | 4. blankets or towels for the prevention of heat loss, | Y | N |
| | 5. equipment and materials for identifying animals and their compartments, | Y | N |
| | 6. cat litter and litter trays if cats are expected for treatment, | Y | N |
| | 7. containers for waste from confinement areas. | Y | N |

10.0 NECROPSY

- | | | | | |
|------|--|----------------------------|-----|---|
| 10.1 | Unless records kept at the facility demonstrate a regular pattern of transferals for necropsy to another member, | (EITHER) | Y | N |
| | the base unit contains an area that can be used for the performance of necropsy. | (EITHER N/A or YES) | N/A | Y |
| | IF YES: | | | |
| 10.2 | The necropsy area is constructed of readily sanitized, fluid-impervious material. | Y | N | |
| 10.3 | The necropsy area contains or has readily available at least one of each of the following, | | | |
| | 1. knives, | Y | N | |
| | 2. scalpels, | Y | N | |
| | 3. scissors, | Y | N | |
| | 4. bone cutters or saws, | Y | N | |
| | 5. forceps. | | | |

11.0 DENTISTRY (DISCRETIONARY)**N/A Y**

- | | | | | |
|------|---|---|---|--|
| 11.1 | If the member provides dentistry from the remote unit, the remote unit contains, or has readily available from the mobile unit, | | | |
| | 1. dental scaling instruments or devices, | Y | N | |
| | 2. dental elevators, | Y | N | |
| | 3. tooth extractors, | Y | N | |
| | 4. sterile gauze sponges, | Y | N | |
| | 5. absorbable and non-absorbable sterile suture material, | Y | N | |
| | 6. a drained sink with hot and cold running water. | Y | N | |

12.0 HOUSEKEEPING

- | | | | |
|------|---|---|---|
| 12.1 | The remote unit contains or has readily available from the base unit a puncture-proof container into which needles, scalpel blades and other sharps are discarded. | Y | N |
