Medical Records Workshops

During these free workshops, participants review regulatory and legal requirements as well as the overall importance of good medical records. Participants learn how to translate the requirements to effectively incorporate them into day-to-day practice.

Workshops are offered in different cities across Ontario throughout the year. Invitations are mailed to veterinarians four to six weeks in advance to notify them of a session in their area.

If you would like more information, or to find out when and where the next workshop will be held, please go to “[Events Calendar](#)” on the CVO Homepage or contact Ms. Karen Smythe at extension 2237 or email ksmythe@cvo.org.
